Type of Supervision: Supervised Release

Date Supervision Commenced: 03/05/09

**NONCOMPLIANCE SUMMARY**

The offender has not complied with the following condition(s) of supervision:

<u>Violation Number</u>	<u>Nature of Noncompliance</u>
-------------------------	--------------------------------

1

The offender has violated the supervision condition which states '**You shall refrain from excessive use of alcohol and shall not purchase, possess, use, distribute, or administer any narcotic or other controlled substance, or any paraphernalia related to such substances, except as prescribed by a physician.**'

The offender has been enrolled in a random urine monitoring program identified as Code A Phone. On May 19, 2009, the offender failed to appear for his urine as directed by the telephone prompt. On May 22, 2009, Jackson was directed to report to the probation office to submit the missed urine; however, he failed to do so. He reported as directed on May 27, 2009, and his urine specimen was negative. On June 2, 2009, the offender again failed to report for his urine as directed. He reported to the probation office on June 3, 2009, and submitted a urine which provided a presumptive positive for cocaine. The offender admitted to cocaine usage, as well as use of ecstasy and marijuana the previous date. The specimen was forwarded to Kroll Laboratory for testing under C01012385, and on June 10, 2009 was confirmed positive for cocaine. A urine specimen obtained on June 8, 2009, was negative for drug usage via instant testing procedures.

U.S. Probation Officer Action:

Mr. Jackson was released from custody on March 5, 2009, after serving an eight-month sentence of imprisonment on a prior violation of supervised release. He tested positive for cocaine within days of his release and the Court was notified via petition dated March 13, 2009. Subsequently, Jackson was enrolled in an intensive out-patient treatment program for 90 days, which has been attending as directed. He attributes his most recent cocaine use to unresolved mental health issues he needs to pursue through a mental health evaluation. Jackson has been referred for services and will need to follow through with mental health counseling on his own accord to be monitored by the probation office. Should the offender utilize cocaine again, the probation office will request a violation of supervised release hearing with a recommendation for incarceration.
